

User Manual

Heaven

Important: Read the user manual carefully
and keep it for future use.

User Manual

The Moonboon Hammock Heaven is designed for the Moonboon Baby Hammock and Cradle - with or without the Moonboon Motor.

WARNING!

Your baby can fall if the product is not installed correctly.

WARNING!

Do not use this product without reading the user manual first.

WARNING!

If you are in any doubt about how to install the product correctly, seek professional help.

Functionalities

- The canopy creates a peaceful and well-ventilated setting for baby to sleep without unwanted disturbances from light and noise.
- The canopy has been designed to be functional, with its ability to reduce ambient noise and light, while also completing the look of your Baby Hammock or Cradle.
- The canopy can either be overlapped at the front to keep light and noise out, or drawn back to each side using the strings provided, allowing more light in.
- When your baby has fallen asleep, we recommend that you open the front, tie the sides by the 2 small strings on each side to allow fresh air flow and easy access to the baby.

Assembly

- 1 To install the Hammock Heaven, first detach your Baby Hammock from its spring.
- 2 Once removed from the spring, place the Hammock Heaven over the Baby Hammock.

To do this, hold the hammock ring in one hand and pull the Hammock Heaven over the Baby Hammock from the top. The ring of the Baby Hammock should be sticking out of the Hammock Heaven opening at the top.
- 3 Make sure that the Hammock Heaven is centered correctly around the Baby Hammock before reinstalling the Hammock onto the spring. To check you have installed it correctly, the Moonboon label should be facing the front opening / foot end of the Baby Hammock.
- 4 Refit the Hammock Heaven around the hammock. If you are using a Baby Hammock Motor, ensure there is enough room to affix the motorwire to the hammock.
- 5 Now your baby is ready to enjoy a peaceful nap, without any disturbances.

Safety Checklist

- Make sure to reinstall the Baby Hammock or Cradle correctly before use. See instruction video if you are unsure how to do this.
- Never place your baby in the Baby Hammock or Cradle when adjusting or installing a new product.
- When using a Moonboon Motor, turn the Motor off when making adjustments.
- When your baby has fallen asleep, we recommend that you open the front leave the Heaven open. This allows good air flow and easy access to your baby.
