User Manual

The Spring is designed for use with the Baby Hammock, Twin Baby Hammock and Cradle. The spring is compatible with the Moonboon Motor.

What is included?

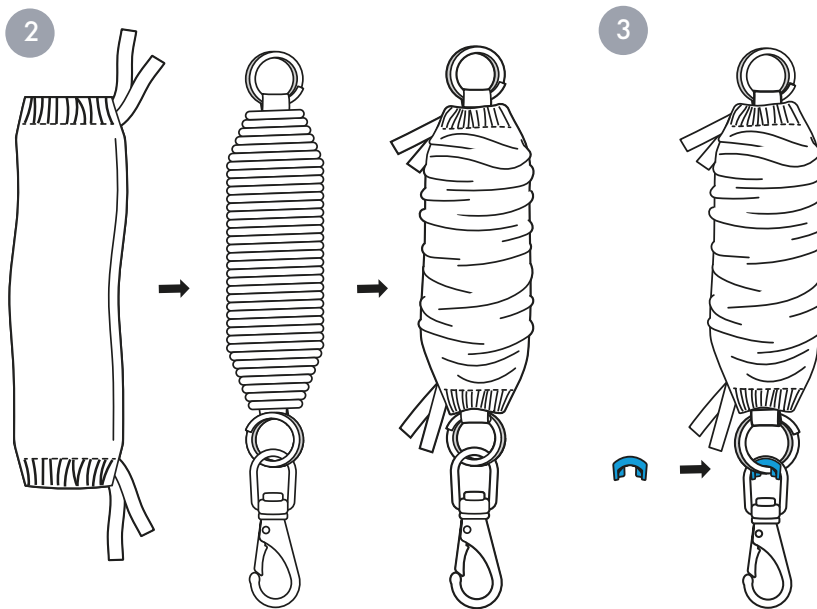

- 1 Spring with safety strap and swivel snap hook
- 1 Fabric spring cover
- 1 Plastic part

Assembly

- 1 First see to the mounting: ceiling hook, door frame clamp, or tripod stand.
- 2 Place the cover around the Spring. Tie the cover with a bow in the top and bottom and stretch out the spring by pulling in each end to spread the cover out evenly.
- 3 The spring comes with 1 extra plastic part. This plastic part prevents the metal parts of your Spring from grinding against each other. Before hanging the Spring, attach the plastic part to the swivel snap hook, as shown in the illustration below. Ensure that the plastic part click audibly into place.

Hang the Spring in your choice of mounting.

Safety Checklist

- The spring will hold newborns and children up to 20 kg (44 lbs).
- Always hang the Spring in a closed hook and system. Always check that the carabiners are locked properly.
- Never use the Spring without the safety strap.
- Do not use the spring for any other purpose than to operate a Baby Hammock, Twin Baby Hammock or Cradle.
